EXPERIENCE

Stockwise | UX Designer

Oct 2020 – Present

Lead designer for start-up financial app to help stock investors keep notes of their trading activities. Collaborated with business and development teams to design user flow, wireframes, user interface, usability testing, and prototype.

POW Interactive | Junior Designer

Aug 2019 – Oct 2020

Collaborated with UX Designers to design user interface and provided accessibility testing such as color contrast and typography. Worked on various projects for POW Interactive and their clients, including Morgan Stanley's app for financial advisors and Perceptronic's mobile app for the military.

Created branding assets including logo, icons, library and style guide; worked closely with developers to implement the design.

Sheer ID | Graphic Designer

Jun 2019 – Aug 2019

Collaborated with the art director and marketing manager to create daily small scale brand communication assets including infographic, page design, hero images on websites.

Edited and updated code on the company website using HTML5 and CSS3.

PSU Student Media | UX Designer

Aug 2016 – Jun 2019

Designed and developed five websites for student organizations from constructing user research, building wireframes, and establishing visual designs.

Collaborated with web developers to design AR experience for Open House Party for 100+ students.
