Professional Experiences

Microsoft, UX Designer

May 2021 – Present

Working in the Community Success Studio team to help Power Platforms users easily find groups and events to join. Collaborate with multidisciplinary UX and product teams to create design solutions for business goals and users’ needs.

Creating and implementing visual design systems across the platform. Updating and maintaining the design system.

Stockwise, Lead UX Designer

Oct 2019 – Jan 2022

Lead designer for a start-up financial app designed to help stock investors keep notes of their trading activities. Collaborated with business and development teams to design user flow, wireframes, user interface, usability testing, and prototype.

Consortium for Health Action, Lead UX Designer

Aug 2021 – Jan 2022

Lead designer for a healthcare app that helps parents keep track of their children’s development. Drove the design process by researching and setting the design strategy in alignment with the business objective. Creating user flow, wireframe, user interface, and establishing the design system.

POW Interactive, Visual Designer

Aug 2019 – Oct 2020

Collaborated with UX Designers to design user interfaces on various projects for POW Interactive and their clients, including Morgan Stanley’s app for financial advisors and Perceptronic’s mobile app for the military.

Created branding assets including logo, icons, library, and style guide; worked closely with developers to implement the design.

Sheer ID, Graphic Designer

Jun 2019 – Aug 2019

Collaborated with the art director and marketing manager to create daily small-scale brand communication assets including infographics, page design, and hero images on websites. Edited and updated code on the company website using HTML5 and CSS3.
